Stop Editing and Save Recipe

The recipe you just created will now be the active recipe. To change recipes, simply click on the recipe you want and then click “Set Active” 

Delete Recipe

You can also delete recipes that may no longer be active recipes. Click on the recipe and then click 

A prompt will appear for confirmation – click Yes or No

Copy Recipe

If there are only a few variables that differentiate your recipes, use the Copy feature.

First, create a new recipe

Click on the recipe that you would like to copy and then click Copy 

A prompt will appear. Click OK

Next, click on the new recipe and click Paste 

A confirmation prompt will appear, click Yes or No

Next, set the new recipe as Active. 

Then click edit 

Name your new recipe, enter description (optional) and Barcode number (optional)

Change the fields per this new recipe and then scroll back to the top and click “Stop Editing and Save Recipe”
